

Sulforix[®]
Fungicide Insecticide-Miticide

**NOW APPROVED FOR USE ON CITRUS
FOR RUST MITE CONTROL**

RATE

2 – 4 QT/AC

What is Sulforix?

Sulforix is a fungicide/insecticide with unique properties designed to penetrate insects and disease spores. A Colloidal Sulfur, Sulforix's particle size enhances coverage and distribution across plant and fruit surfaces.

Sulforix Benefits:

Quick Knockdown

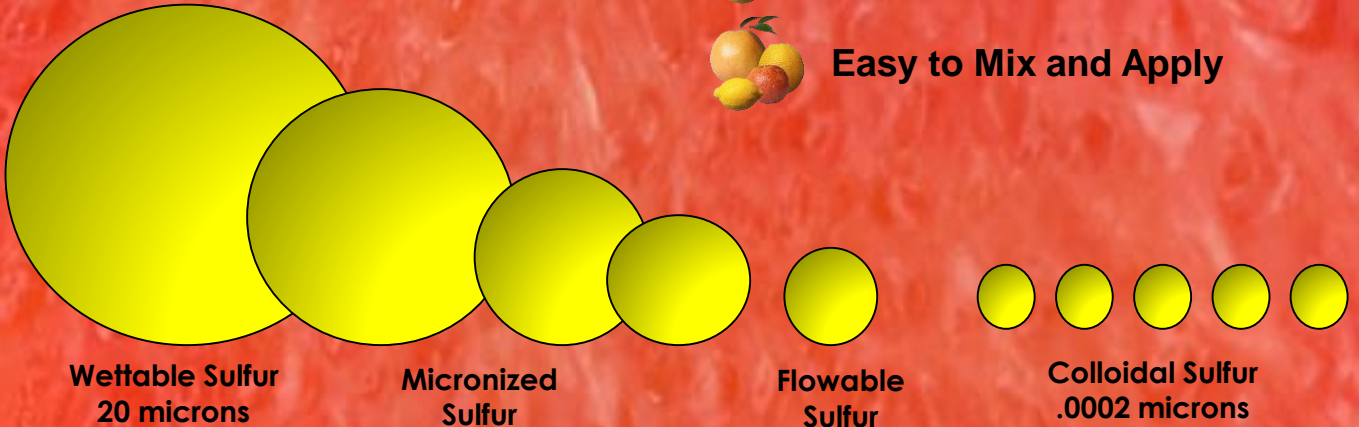

Soft on Fruit and Foliage

No Known Resistance

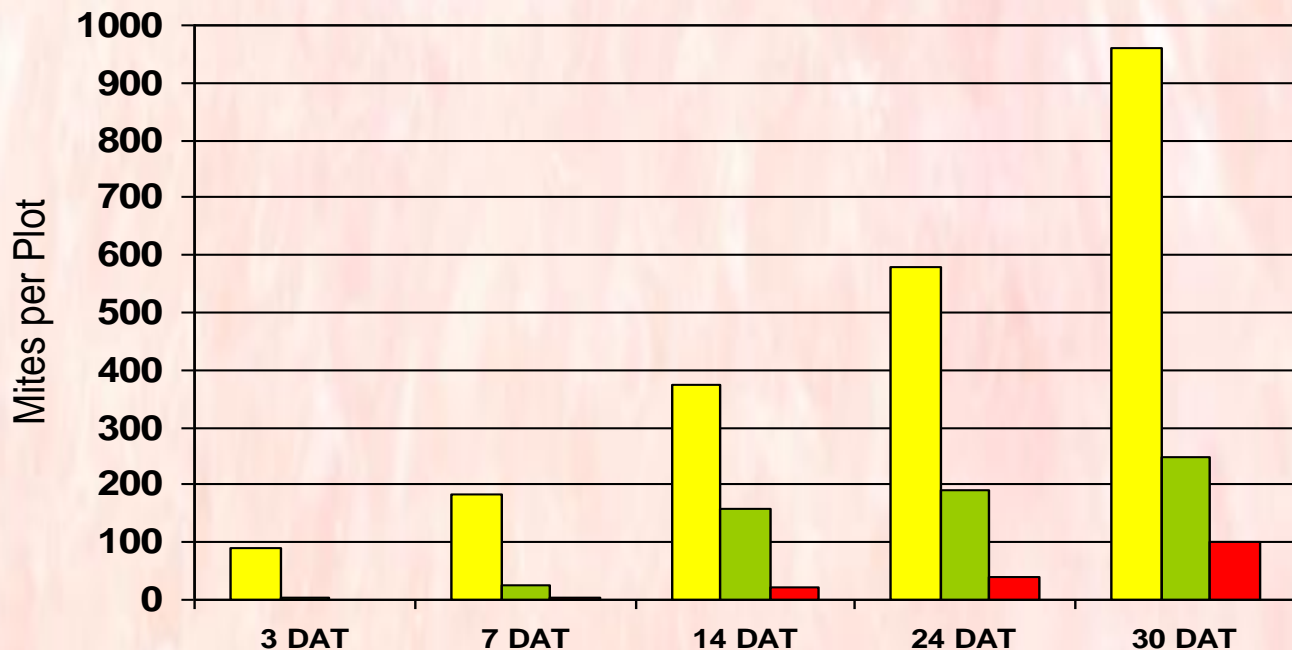

Easy to Mix and Apply

Efficacy of Sulforix on Rust Mite in Grapefruit

(2014 Ft. Pierce, Florida)

Research conducted by Dr. John Curtis

- Check
- Sulforix 2 Qt/Acre
- Sulforix 4 Qt/Acre

Application volume (250 GPA)

Summary: Overall, applications of Sulforix at 2 or 4 quart per acre had a significant reduction in the number of mite motiles in this trial. No phytotoxicity issues were observed on the fruit.
